

Business Analyst

London

An exciting opportunity to work as a Business Analyst (BA) within the Trading, Risk and Operations (TRO) IT delivery department of a Global Fortune 500 fuels company.

The TRO team is looking for an energetic individual to join the support team. The TRO team is integral to the companies trading activities and works closely with the business to deliver world class IT solutions.

Within Greenergy BAs play a big part in influencing the way the company operates. We look for personable, professional individuals who will have a passion to shape the processes, systems and future of this fast paced company.

Acting as a go between for Business and the IT departments. It is the role of the BA to understand all areas of business process, structures and policies. They will have not only have a view on but advise on new, or amendments to existing, business processes.

New developments will include a requirements gathering (functional and non-functional) process. This will happen in conjunction with stakeholders to understand an issue or new business area. It is the responsibility of the BA to lead this process, capturing all requirements to deliver the change. These requirements should be communicated and approved from both Business sponsors and IT leads.

Responsibilities

- » Working with teams from around the world, the BA is responsible to ensure that design and development of new business requirements meet internal IT design standards. This should deliver to the needs of the business with a view of value for money.
- » Discovery, design and development planning should be led by the BA. Project plans, timelines and budgets should be worked on in conjunction with the line manager.
- » All phases of development should be covered by the BA; design, coding, internal/user testing, training, rollout and transition to support.

Other activities include;

- Attending team meetings
- Leading design meetings
- Attending design review and change approval meetings
- Engaging in support function in a 2nd / 3rd level
- Training appropriate to role

Targets

- » Delivering IT and Business process improvement
- » Deliver projects that meet requirements and deliver value for money
- » Act as a point of contact for IT development, support staff along with managers
- » Act as a point of contact for Business leaders
- » Liaise between the between the business and IT to deliver pound for a pound value

Essential:

- » 5 years' plus experience in a Business Analyst (or equivalent) role
- » Deep understanding of Trading and Risk Management
- » Experience of a commodities trading nature
- » Extremely strong communications skills

Desirables:

- » Experience of implementing a Trading and Risk management platform
- » Knowledge of the Oil industry
- » Road fuel supply chain
- » Agile delivery methodologies
- » ITIL qualification
- » IT based skills
 - a. Coding standards
 - b. SQL
 - c. Strong Microsoft skills (Powerpoint, Excel and Project)
