

Business Intelligence and Data Warehousing Analyst

Manchester

Greenergy supplies road fuel to customers in the UK and Canada. Established in 1992, we have grown to become a Fortune 500 global business and the second largest privately-owned company in the UK. We operate globally with offices in Canada, the USA, Brazil and Dubai and source fuels from around the world, receiving over 700 shipments annually. To deliver fuel to our customers, we also have an in-house haulage operation employing over 350 drivers.

Context - Opportunity:

This role presents the successful candidate an opportunity to help the Oracle Finance team to design, deliver and support a perennial business intelligence and data warehousing platform to meet an increasing demand for BI across all Greenergy's business areas. The experienced candidate will be empowered to leverage their own experience and skills to make a real impact.

Main Job Purpose:
